# County of San Luis Obispo

TO: Board of Supervisors

FROM: Social Services/Trish Avery Caldwell  
(805) 781-1728

DATE: 7/15/2014

SUBJECT: Request to approve two renewal service contracts (Clerk's File) for Domestic Violence Services with 1) RISE (Respect, Inspire, Support, Empower) of San Luis Obispo County and 2) Women's Shelter Program of San Luis Obispo County (WSP) for Fiscal Year 2014-15 in the amounts of \$100,000 and \$75,000 respectively. All Districts.

## **RECOMMENDATION**

1. It is recommended that your Board approve, and direct the Chairperson to sign, a renewal service contract with RISE (Respect, Inspire, Support, Empower) of San Luis Obispo County [previously North County Women's Shelter and Resource Center/Sexual Assault Recovery and Prevention (SARP) Center of San Luis Obispo County] for Domestic Violence Services for Fiscal Year 2014-15 in the amount of \$100,000.
2. It is recommended that your Board approve, and direct the Chairperson to sign, a renewal service contract with the Women's Shelter Program of San Luis Obispo County (WSP) for Domestic Violence Services for Fiscal Year 2014-15 in the amount of \$75,000.

## **DISCUSSION**

In 1997 our federal/state public assistance program was drastically changed to focus on minimizing "welfare dependency" by increasing the number of working adults through expanded training and supportive services opportunities, and by giving states flexibility in the design and implementation of programs. The new Federal program was named Temporary Assistance for Needy Families (TANF) and allowed States to offer unique programs based on individual state demographics. The California program, California Work Opportunity and Responsibility to Kids (CalWORKs), includes detailed requirements and funding for supportive services to help families move into employment and be successful in the workforce.

Specifically, domestic violence (DV) services must be available to CalWORKs participants to assist them in overcoming barriers to employment and moving them toward self-sufficiency. The studies covering the prevalence of domestic violence among women receiving CalWORKs varies with estimates ranging as low as thirty percent (30%) and as high as eighty percent (80%). Those in the field of DV services believe that findings are varied due to the lack of an accepted universal typology for categorizing and measuring abuse, and also extensive underreporting by victims. Locally, it is estimated that seventy-five percent (75%) of CalWORKs participants have experienced some level of domestic abuse in their adult life. The local CalWORKs statistic is further supported with findings from the Bureau of Justice which indicates that people with lower annual incomes (below \$25K) have 3-times higher risk of abuse than people with higher annual income (over \$50K). The majority of CalWORKs households have an annual income of under \$10K (Source: Bureau of Justice Statistics, Intimate Partner Violence in the US; 1993-2004, 2006, [www.bjs.gov](http://www.bjs.gov)).

### **Respect, Inspire, Support, Empower of San Luis Obispo County- RISE:**

In 2013 the North County Women's Shelter and Resource Center (NCWS) and Sexual Assault Recovery and Prevention (SARP) Center merged and later in the year announced their new agency name: RISE of San Luis Obispo County – short for Respect, Inspire, Support, Empower. Prior to the merge, individually the nonprofits assisted victims of DV (NCWS)

and sexual assault (SARP) with services overlapping. After extensive local community and agency input, the two (2) agencies agreed to join efforts and as a result have been able to better service those in the community by streamlining services, reducing administrative costs and increasing funding to provide direct services. Services are available in both English and Spanish to men, women, children and families experiencing DV and/or sexual assault. All services are confidential and include counseling, two 24-hour emergency shelters for women and children (North County), assistance obtaining temporary restraining orders, help obtaining housing, child care, support groups, parenting classes, resource information and referrals, community education and training, and case management. Specifically, the County contracts for counseling and shelter services. All services are confidential and RISE is the only provider of DV services in the north and north coastal regions of San Luis Obispo County. For more information about services offered by RISE visit their website(s) at [www.riseslo.org](http://www.riseslo.org)

#### Women's Shelter Program of San Luis Obispo County (WSP):

The Women's Shelter Program of San Luis Obispo County (WSP) has been offering services to DV victims and their families since 1977 and incorporated in 1979. What started as a shelter-only (i.e. housing) program has evolved to providing extensive supportive services required to sustain housing and assistance for those seeking help. The WSP provides services in both English and Spanish to men, women, children, and families. Both prevention and intervention services are available and include a 24-hour emergency safe-house shelter (for women and children only), individual and group counseling, children's services, community outreach and education, legal services including temporary restraining order assistance, resource information and referrals, transitional housing and case management. All services are confidential. The DSS contract specifically funds shelter and counseling services to CalWORKs participants based on a case manager referral. For more information about services offered by the WSP visit their website at [www.womensshelterslo.org](http://www.womensshelterslo.org)

The renewal of these contracts will ensure both agencies continue to provide confidential services to CalWORKs DV victims and their children that include shelter and counseling services necessary to assist adults in making sound life choices that maximize the health and safety of both themselves and their children. These services support the Department and County goal of ensuring all people in our community enjoy healthy, successful and productive lives, and have access to the basic necessities.

#### OTHER AGENCY INVOLVEMENT/IMPACT

These contracts were developed in partnership with both RISE and WSP and County Counsel has reviewed and approved the contracts as to legal form and effect.

#### FINANCIAL CONSIDERATIONS

The total contract amounts for RISE (previously funded as the SARP) and WSP are \$100,000 and \$75,000 respectively. These contracts are included in the DSS adopted budget for Fiscal Year 2014-2015 and will require no General Fund contribution.

Agency	Adopted FY 12-13	Budgeted FY 13-14	Budgeted FY 14-15	Notes	Sharing Ratios		
					Fed	St	Co
RISE	\$100,000	\$100,000	\$100,000	North County Domestic Violence Emergency Shelter and Counseling Services	100%		
Women's Shelter Program of SLO County (WSP)	\$75,000	\$75,000	\$75,000	SLO Domestic Violence Emergency Shelter and Counseling Services	100%		

#### RESULTS

**RISE (Respect, Inspire, Support, Empower) of San Luis Obispo County – Domestic Violence Intervention and Prevention Counseling and Shelter**

## Fiscal Year 13-14

*As of March 31, 2014, a total of seventy eight (78) women and children receiving CalWORKs were identified and served by RISE. It is anticipated that this number will be higher by June 30, 2014, which is the end of the contract.*

*Based on the final quarterly report for FY 2012-2013 and received July 20, 2013, a total of one hundred fourteen (114) women and children received domestic violence services last year.*

### **Emergency Shelter Services:**

- RISE provided services that resulted in eighty seven percent (87%), or thirty three (33) of thirty eight (38), of the women staying at the two shelters (Atascadero and Paso Robles) improving their emotional stability and obtaining a greater sense of self-worth. *This number is slightly lower than the anticipated ninety percent (90%), though not low enough to be a concern as all services are received on a voluntary basis.*

*Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, ninety three percent (93%), or forty three (43) or forty six (46), CalWORKs participants who attended at least four (4) counseling sessions showed improvement in their emotional stability and sense of self-worth.*

- RISE provided services that resulted in sixty-eight percent (68%) of families exiting the shelters obtaining safe housing away from the abuser as of March 31, 2014. *A total of twenty eight (28) women left the shelter with nineteen (19) obtaining safe housing. The percentage is lower than the anticipated ninety percent (90%) due to a number of reasons which include the lack of affordable housing, a lack of entry level jobs to pay for housing, and sometimes the victim chooses to return to the abuser (sometimes it takes multiple attempts before a victim successfully leaves his/her abuser). In addition, funding sources for support housing have been decreased and therefore are limited.*

*Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of thirty nine (39) women left the shelter with twenty six (26), or sixty seven percent (67%) obtaining safe housing away from the abuser.*

### **Counseling Services:**

*As of March 31, 2014, a total of two hundred eight two (282) counseling hours were provided to women and children who were identified as CalWORKs participants. It is anticipated that this number will be higher by June 30, 2014, which is the end of the contract.*

*Based on the final quarterly report for FY 2012-2013 and received July 20, 2013, a total of four hundred ninety four (494) counseling hours were provided to women and children who were identified as CalWORKs participants.*

- RISE provided services to thirty eight (38) CalWORKs identified women that resulted in eighty eight percent (88%), or thirty three (33) of the women (25-35) staying at the two shelters (Atascadero and Paso Robles) and receiving counseling services improving their emotional stability and obtaining a greater sense of self-worth as of March 31, 2014. *This number is slightly lower than the anticipated ninety percent (90%), though not low enough to be a concern as all services are received on a voluntary basis. A total of one hundred forty three (143) counseling hours were provided for shelter participants identified as eligible to CalWORKs.*

*Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of forty seven (47) CalWORKs identified women stayed at the shelter. A total of ninety three percent (93%) who attended at least four (4) counseling sessions showed improvement in their emotional stability and sense of self-worth. A total of two hundred six (206) counseling hours were provided for shelter participants identified as eligible to CalWORKs.*

- RISE provided services that resulted in eighty four percent (84%) of shelter children old enough to participate in counseling/play therapy exhibiting behavioral improvement and appropriate interaction with others as of March 31, 2014. *This number is slightly lower than the anticipated ninety percent (90%), though not low enough to be a concern as all services are received on a voluntary basis. As of March 31, 2014, a total of forty (40) children*

*stayed at the shelter. Eighty four percent (84%) of eleven (11) children staying at the shelter long enough to attend at least four (4) counseling session exhibited behavioral improvement. A total of eleven (11) children were too young to participate in counseling services and eighteen (18) did not stay at the shelter long enough to participate in counseling. A total of sixty two (62) counseling hours were provided to CalWORKs eligible children.*

*Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of sixty eight (68) children stayed at the shelter. Of these children, thirteen (13), or one hundred percent (100%) of children staying at the shelter long enough to attend at least four (4) counseling session exhibited behavioral improvement. A total of twenty nine (29) children were too young to participate in counseling services and twenty six (26) did not stay at the shelter long enough to participate in counseling. A total of twenty four (24) counseling hours were provided to CalWORKs eligible children.*

- RISE met their performance outcome to provide services that resulted in ninety percent (90%) of CalWORKs families participating in the Community Counseling Program demonstrating an increase in emotional stability and a greater sense of self-worth. As of March 31, 2014, a total of eighteen (18) families participated in the Community Counseling Program with sixteen (16), or eighty nine percent (89%), demonstrating increased emotional stability and a greater sense of self-worth. A total of seventy seven (77) community counseling hours were provided.

*Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of thirty three (33) CalWORKs families participated in the Community Counseling Program with thirty (30), or ninety percent (90%), demonstrating increased emotional stability and a greater sense of self-worth. A total of two hundred sixty four (264) community counseling hours were provided.*

#### Fiscal Year 14-15

##### **Emergency Shelter Services:**

- Contractor will provide services that result in ninety percent (90%) of the women (25-35) staying at the two shelters improving their emotional stability and obtaining a greater sense of self-worth.
- Contractor will provide services that result in ninety percent (90%) of families (25-35) exiting the shelters obtaining safe housing away from the abuser.

##### **Counseling Services:**

- Contractor will provide services that result in ninety percent (90%) of the women (25-35) staying at the two shelters improving their emotional stability and obtaining a greater sense of self-worth.
- Contractor will provide services that result in ninety percent (90%) of shelter children old enough to participate in counseling/play therapy exhibiting behavioral improvement and appropriate interaction with others.
- Contractor will provide services that result in ninety percent (90%) of CalWORKs families (30-40) participating in the Community Counseling Program demonstrating an increase in emotional stability and a greater sense of self-worth.

##### **Women's Shelter Program of SLO (WSP) – Domestic Violence Intervention and Prevention Counseling and Shelter**

*As of March 31, 2014, a total of seventy six (76) women and children receiving CalWORKs were identified and served at the WSP. It is anticipated that this number will be higher by June 30, 2014, which is the end of the contract.*

#### Fiscal Year 13-14

##### **Emergency Shelter Services:**

- WSP exceeded its performance outcome to provide services that resulted in 1,020 shelter nights being provided

to CalWORKs participants. As of March 31, 2014, a total of one thousand nine hundred eighty six (1,986) shelter nights have been provided. It is anticipated that this number will be higher by June 30, 2014, which is the end of the contract.

Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of nine hundred thirty three (933) nights of shelter were provided to CalWORKs participants.

- WSP exceeded its performance outcome to provide services that resulted in ninety percent (90%) of CalWORKs Shelter residents who completed the client survey reporting that shelter services improved their sense of safety. As of March 31, 2014, a total of nine (9) of nine (9), or one hundred percent (100%) of participants who completed the client survey reported the shelter improved their sense of safety.

Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of fourteen (14) of fourteen (14), or one hundred percent (100%) of participants who completed the client survey reported the shelter improved their sense of safety.

- WSP exceeded its performance outcome to provide services that resulted in ninety percent (90%) of CalWORKs participants who completed the client survey reporting that shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.). As of March 31, 2014, a total of eight (8) of eight (8), or one hundred percent (100%) of participants who completed the client survey reported the shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.)

Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of fourteen (14) of fourteen (14), or one hundred percent (100%) of participants who completed the client survey reported the shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.).

#### **Counseling Services:**

- WSP provided services that resulted in providing two hundred fifty six (256) counseling hours to CalWORKs clients experiencing Domestic Violence as of March 31, 2014. This number is slightly below the anticipated performance outcome of 450 counseling hours, however it is anticipated that by the end of the contract this outcome will be met. All referrals received from DSS were screened and had access to Domestic Violence services including counseling. All services are received on a voluntary basis.

Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of five hundred one (501) counseling hours were provided.

- WSP exceeded its performance outcome to provide services that resulted in ninety percent (90%) of CalWORKs participants who completed the client survey reporting that counseling services improved their sense of safety. As of March 31, 2014, a total of nineteen (19) of nineteen (19), or one hundred percent (100%) of CalWORKs participants who completed the client survey indicated that services provided improved their sense of safety. It is anticipated that by the end of the contract this outcome will be higher.

Based on the final quarterly report for FY 2012-2013 and received on July 20, 2013, a total of thirty five (35) of thirty nine (39), or eighty nine percent (89%) of participants receiving counseling services reported it improving their sense of safety.

- WSP exceeded its performance outcome to provide services that resulted in ninety percent (90%) of CalWORKs participants who completed the client survey reporting that shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.). As of March 31, 2014 a total of seventeen (17) of seventeen (17) or one hundred percent (100%) of CalWORKs participants who completed the client survey reporting that shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.).

#### **Fiscal Year 14-15**

**Emergency Shelter Services:**

- WSP will provide 1,020 nights of shelter.
- Ninety percent (90%) of CalWORKs Shelter residents who complete the client survey will report that shelter services improved their sense of safety.
- Ninety percent (90%) of CalWORKs participants who complete the client survey will report that shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.).

**Counseling Services:**

- WSP will provide 450 counseling and advocacy hours.
- Ninety percent (90%) of CalWORKs participants who complete the client survey will report that counseling and advocacy services provided improved their sense of safety.
- Ninety percent (90%) of CalWORKs participants who complete the client survey will report that shelter services were “culturally competent” and respectful (i.e., sexual orientation, disability status, etc.).
